Budget Plan

Managing a household budget can be a challenge. Our **Budget Plan** provides the advantage of spreading winter heating costs over the entire year. Here's how it works:

- We calculate your average monthly payment based on historical natural gas usage, adjusted for normal weather, and projected gas costs.
- Periodically, we review your account to determine that the monthly estimate is on target. Each month your bill will show actual gas usage and bill amounts, along with budget installments, so you can review the information regularly. An adjustment to your monthly budget payment may be necessary to prevent significant charges or credits at the end of your budget year.

Your twelfth monthly bill will reflect the last installment of your budget cycle – adjusted for the difference between actual and budgeted gas usage. Overpayments are credited to your account unless a refund is requested. If you use more gas than you pay for, you owe the company the difference.

The **Budget Plan** is designed as a year-round program, so we encourage you to stay on it for a full 12-month billing cycle to realize the potential benefits.

To **enroll** in the **Budget Plan**, simply fill out the application in this brochure, enroll online at washingtongas.com, or call our **Automated Services Line** at **703-750-7944** and enroll over the telephone. If you qualify, we'll put you on the **Budget Plan** at the start of the next available billing cycle.

Automated Payment Plans

eBill Automated Payment Plan (EBAP)

Receive and pay your gas bill automatically each month through the **eBill Automated-Payment Plan (EBAP)** program. With **EBAP**, you can select the number of days after billing when you would like the payment to be deducted and you can set a maximum payment amount. Additionally, an email notice will be sent every month with a link to view your electronic bill. To **enroll** or learn more, visit washingtongas.com/pages/AutomatedPaymentPlan.
