

GENERAL SERVICE PROVISIONS (continued)

12. TEMPORARY DISCONTINUANCE OF SUPPLY

The Company may temporarily shut off the supply of gas to the customer's premises after reasonable notice for the purpose of making necessary repairs or adjustments to mains or supply pipes, and reserves the right to shut off the supply of gas without notice in case of emergency.

13. INSTALLATION OF SERVICE PIPES AND CONNECTIONS

- a. The provisions of this section apply only to customers for original service to a premise not currently or previously served or to customers for whom existing facilities' capacity is insufficient to supply new demand put upon it and additional investment in facilities to serve those customers is required. Provisions of this section do not apply to Interruptible Service - Rate Schedule No. 3.
- b. Upon application for connection between a gas main and a building to be supplied with gas, the entire installation of the gas service pipe and connections from the main to the meter shall be made by the Company or a contractor approved by the Company. This service pipe shall be of the size and type prescribed by the Company.
- c. The Company shall not be required to install facilities where the revenue from such installation will not justify the investment. Under such conditions, the Company may require a contribution from the applicant. Any contribution will be determined based on the economic test, as set forth in General Service Provision 14, ECONOMIC EVALUATION OF FACILITIES EXTENSION.
- d. When, at the request of the customer, a special service connection or a service connection of temporary character is made, the cost of the entire connection and removal of same, less the salvage value of the returned material, will be charged to the customer requesting same.
