Maryland Customers

Notice

RATE CHANGE

In November 2007, the Maryland Public Service Commission (Commission) approved new rates for Maryland customers of Washington Gas. These rates reflect an annual increase in revenue to Washington Gas of approximately \$20.55 million. The cost to the average residential heating customer will increase by approximately \$4.12 per month or \$49.49 per year. The new rates apply to all Maryland customers who either purchase gas directly from Washington Gas or who buy gas from a retail energy supplier.

The only change to fees for certain specialized services to customers is the addition of a Reconnect Charge that applies when Washington Gas must disconnect service to a meter to which it cannot gain access after reasonable attempts to do so. Schedules listed below show the billing rates approved by the Commission.

RATE SCHEDULE NOS. 1 AND 1 A

Residential Service
