

6. SUBMETERING

Gas service furnished to a customer shall be for the customer's own use and may not be remetered or submetered by the customer for the purpose of selling or charging for gas service to another or to others either directly or indirectly.

7. MASTER METERING

- a. Upon request by the customer, the Company will serve gas to multiple dwelling units by means of a master meter either by (1) master metering the gas for each building, or (2) master metering the gas for groups of buildings under the same ownership when such buildings are not separated by public ways.
- b. The Company will install one or more master meters, as required under the circumstances, to replace individual dwelling unit meters, or master meters in individual buildings comprising a multi-building dwelling project, upon the following terms and conditions:
 - (1) The customer's distribution system shall not be installed in any public way, and the customer shall bear the cost and responsibility for his distribution system from the outlet of the master meter;
 - (2) The customer shall pay the Company the cost of disconnecting and removing existing Company facilities;
 - (3) The customer shall pay the Company the unrecovered portion of the Company's investment in facilities being removed or abandoned, which are not economically reusable;
 - (4) If the changeover necessitates the installation of any new service pipe or any additional gas main capacity without any substantial increase in gas consumption, the customer shall bear the cost of such new facilities, reduced however by any payment made under (3) above; and
 - (5) The Company will install its facilities from the terminal of the new service pipe to the meter outlet at no expense to the customer, but it shall be the responsibility of the customer to furnish locations satisfactory to the Company for such facilities.
- c. Before the Company proceeds with the installation of a master meter to serve the buildings of a multi-building dwelling project, where customer piping is installed underground in private property between two or more of such buildings, the customer shall agree in writing to the terms and conditions hereinafter provided.
 - (1) In the event any of the private property in which customer piping is installed thereafter becomes a public way, the customer shall:
 - (a) Arrange and pay for the removal of customer piping in said public way;
 - (b) Bear any cost of installing new piping and other facilities on the customer's side of the meter installations; and
